Educational Pet nutrition

Nutritional information on pet food

Complete nutrition: Complete meal. Includes all necessary nutrients

Complementary food: Not a complete meal. Without all necessary nutrients

Percentage of nutrients, main calorific content - to find out the percentage of each nutrient, whether it is high or low for your pets needs please read the percentages that can be found behind the food bag (Proteins %, Carbohydrates %, Fats %, Fiber%, Vitamins%, Minerals%, Water matter%, dry matter%)

Ingredients – to find out how many rich ingredients are provided in the pet food, please read the table behind the food packet.

Dry matter and water content – to find out how much dry matter and how much water is in the food, please read the table behind the food packet.

Balanced diet

Nutrients	Benefit – Balanced nutrition	Deficiency	Excess
Proteins	Lean muscle and growth	Poor growth	Kidney stress
Fiber (Carbohydrate, Fruits and vegetables)	Healthy digestion	Loose stools	Gas
Fats	Healthy skin and coat	Dull coat	Weight gain
Vitamins	Strong immune system	Fatigue	Organ stress
Minerals	Strong bones and teeth	Weakness	Bladder stones
Water	Hydration	Dehydration	

Educational nutritional advice

HOW TO TRANSITION YOUR PET'S FOOD

DAYS 1-2

DAYS 3-4

DAYS 5-6

DAY 7

Ideal body condition score number 4

Waist - the waist has a curve, the waist is not straight

Abdomen – tucked up, not dropping down

Ribs – minimal fat covering the ribs and easily palpable

BODY CONDITION SCORE SMALL DOG

TOO THIN

1

- Ribs, lumbar vertebrae, pelvic bones and all bony prominences evident from a distance
- No discernible body fat
- Obvious loss of muscle mass

2

- Ribs, lumbar vertebrae, and pelvic bones easily visible
- No palpable fat
- Some bony prominences visible from a distance
- Minimal loss of muscle mass

3

- Ribs easily palpable and may be visible with no palpable fat
- Tops of lumbar vertebrae visible, pelvic bones becoming prominent
- Obvious waist and abdominal tuck

IDEAL

ABOVE IDEAL

4

- Ribs easily palpable with minimal fat covering
- Waist easily noted when viewed from above
- Abdominal tuck evident

5

- Ribs palpable without excess fat covering
- Waist observed behind ribs when viewed from above
- Abdomen tucked up when viewed from side

6

- Ribs palpable with slight excess of fat covering
- Waist is discernible when viewed from above but is not prominent
- Abdominal tuck apparent

OVERWEIGHT

OBESE

7

- Ribs palpable with difficulty, heavy fat cover
- Noticeable fat deposits over lumbar area and base of tail
- Waist absent or barely visible
- Abdominal tuck may be absent

8

- Ribs not palpable under very heavy fat cover or palpable only with significant pressure
- Heavy fat deposits over lumbar area and base of tail
- Waist absent
- No abdominal tuck
- Obvious abdominal distension may be present

9

- Massive fat deposits over thorax, spine, and base of tail
- Waist and abdominal tuck absent
- Fat deposits on neck and limbs
- Obvious abdominal distension

Ideal body condition score number 4

Waist - the waist has a curve, the waist is not straight

Abdomen – tucked up, not dropping down

Ribs – minimal fat covering the ribs and easily palpable

BODY CONDITION SCORE CAT

TOO THIN

- 1**
- Ribs, spine and pelvic bones easily visible on shorthaired cats
 - Very narrow waist
 - Small amount of muscle
 - No palpable fat on the rib cage
 - Severe abdominal tuck

- 2**
- Ribs easily visible on shorthaired cats
 - Very narrow waist
 - Loss of muscle mass
 - No palpable fat on the rib cage
 - Very pronounced abdominal tuck

- 3**
- Ribs visible on shorthaired cats
 - Obvious waist
 - Very small amount of abdominal fat
 - Marked abdominal tuck

IDEAL

ABOVE IDEAL

- 4**
- Ribs not visible but are easily palpable
 - Obvious waist
 - Minimal amount of abdominal fat

- 5**
- Well proportioned
 - Ribs not visible but are easily palpable
 - Obvious waist
 - Small amount of abdominal fat
 - Slight abdominal tuck

- 6**
- Ribs not visible but palpable
 - Waist not clearly defined when seen from above
 - Very slight abdominal tuck

OVERWEIGHT

OBESE

- 7**
- Ribs difficult to palpate under the fat
 - Waist barely visible
 - No abdominal tuck
 - Rounding of abdomen with moderate abdominal pad

- 8**
- Ribs not palpable under the fat
 - Waist not visible
 - Slight abdominal distension

- 9**
- Ribs not palpable under a thick layer of fat
 - Waist absent
 - Obvious abdominal distension
 - Extensive abdominal fat deposits
